Note :

Please note that you can find the information on examinations, courses corresponding to the examinations, and examination dates in the portal Friedolin under the menu item 'Browse module descriptions'. After logging in, please choose your degree, your study programme, and respective module. Any immediate changes made will be displayed promptly.

Informationen zum Vorkurs "Inter-Kulturalität und Campus-Leben"

Information on the preliminary course Inter-Culturalism and Campus Life

Prior to the first semester, the preliminary course Inter-Culturalism and Campus Lifetakes place as a block seminar on the weekend before the first week of the semester. The preliminary course will bring together the students of the master's programme in a block event lasting several days. Primarily it shall

- a) enable students to get to know their fellow students and their lecturers,
- b) prepare the students for an intercultural experience in an "international classroom",
- c) familiarise students with the academic structure and standards of the University of Jena,
- d) provide an introduction to German politics, society and culture, and
- e) promote networking among students and their integration by introducing mentors.

The preliminary course contains mainly the following elements: In cooperation with the subject International Business Communication, differences and similarities of academic and social cultures are reflected, thus creating sensitivity for the challenges of an internationally recruited degree programme. The preliminary course also provides an overview of the structure, organisation and goals of the course, including an introduction of the teaching staff. It offers an introduction to good scientific practice in line with German academic standards and the guidelines of the Institute of Political Science. The most important contact points for students on campus are presented (including the library, Haus auf der Mauer, International Office, Examination Office). Beyond the campus, students are to be introduced to the political and cultural life in Jena and Thuringia. This includes visits to places of remembrance (such as the former concentration camp Buchenwald) and possible discussions with Jena and Thuringian representatives from politics and society. Each international student is also assigned a German student as mentor.

In a discussion with the heads of the study programme at the end of the semester, the students give the teachers personal and critical feedback on their impressions of the first semester, the knowledge and skills they acquired, and their further goals for their studies and professional life.

Modul Arab 1.3 Basics of the Islamic religion	
Module code	Arab 1.3
Module title (German)	Grundlagen des Islams
Module title (English)	Basics of the Islamic religion
Frequency of offer (how often is the module offered?)	Every second semester (beginning in winter semester)
Duration of module	1 semester
ECTS credits	5 CP
Work load:	150 h
- In-class studying	60 h
- Independent studying (incl. preparations for examination)	90 h

Modul Arab 2.4 Later Arabic history: Ottoman rule, colonialism, independence and Islamism	
Module code	Arab 2.4
Module title (German)	Jüngere arabische Geschichte: Osmanenzeit, Kolonialismus, Unabhängigkeit und Islamismus
Module title (English)	Later Arabic history: Ottoman rule, colonialism, independence and Islamism
Frequency of offer (how often is the module offered?)	Every second year (beginning in summer semester)
Duration of module	1 semester
ECTS credits	5 CP
Work load:	150 h
- In-class studying	45 h
- Independent studying (incl. preparations for examination)	105 h

Modul Arab 3.3 Regional information on the Arab world	
Module code	Arab 3.3
Module title (German)	Arabische Landeskunde
Module title (English)	Regional information on the Arab world
Frequency of offer (how often is the module offered?)	Every second year (beginning in summer semester)
Duration of module	1 semester
ECTS credits	5 CP
Work load:	150 h
- In-class studying	45 h
- Independent studying (incl. preparations for examination)	105 h

Modul BA.IWK.P2 Cultural Studies	
Module code	BA.IWK.P2
Module title (German)	Kulturspezifisches Wissen und Handeln
Module title (English)	Cultural Studies
Frequency of offer (how often is the module offered?)	Every semester
Duration of module	1-2 semester
ECTS credits	10 CP
Work load:	300 h
- In-class studying	60 h
- Independent studying (incl. preparations for examination)	240 h

Modul BW 13.1 Basic Module Organization, Leadership and Human Resource Management	
Module code	BW 13.1
Module title (German)	Basismodul Organisation, Führung und Human Resource Management
Module title (English)	Basic Module Organization, Leadership and Human Resource Management
Frequency of offer (how often is the module offered?)	Every second semester (beginning in summer semester)
Duration of module	1 semester
ECTS credits	6 CP
Work load:	180 h
- In-class studying	60 h
- Independent studying (incl. preparations for examination)	120 h

Modul BW 13.2 Specialisation Module Organization, Organizational Behavior, Leadership and Human Resource Management	
Module code	BW 13.2
Module title (German)	Vertiefungsmodul Organisation, Verhalten in Organisationen, Führung und Human Resource Management
Module title (English)	Specialisation Module Organization, Organizational Behavior, Leadership and Human Resource Management
Frequency of offer (how often is the module offered?)	Every second semester (beginning in winter semester)
Duration of module	1 semester
ECTS credits	6 CP
Work load:	180 h
- In-class studying	60 h
- Independent studying (incl. preparations for examination)	120 h

Modul BW 16.1 Basic Module Management	
Module code	BW 16.1
Module title (German)	Basismodul Management
Module title (English)	Basic Module Management
Frequency of offer (how often is the module offered?)	Every second semester (beginning in summer semester)
Duration of module	1 semester
ECTS credits	6 CP
Work load:	180 h
- In-class studying	60 h
- Independent studying (incl. preparations for examination)	120 h

Modul BW 25.1 Basic Module Basics of Economic Policy	
Module code	BW 25.1
Module title (German)	Basismodul Grundlagen der Wirtschaftspolitik
Module title (English)	Basic Module Basics of Economic Policy
Frequency of offer (how often is the module offered?)	Every second semester (beginning in winter semester)
Duration of module	1 semester
ECTS credits	5 CP
Work load:	150 h
- In-class studying	60 h
- Independent studying (incl. preparations for examination)	90 h

Modul BW 25.2 Specialisation Module Economics of Global Economic Restructuring	
Module code	BW 25.2
Module title (German)	Vertiefungsmodul Ökonomik des weltwirtschaftlichen Strukturwandels
Module title (English)	Specialisation Module Economics of Global Economic Restructuring
Frequency of offer (how often is the module offered?)	Every second semester (beginning in summer semester)
Duration of module	1 semester
ECTS credits	6 CP
Work load:	180 h
- In-class studying	60 h
- Independent studying (incl. preparations for examination)	120 h

Modul HiSO 861 Advanced Seminar Eastern European History - Focus Southeast European Studies 1 (Social and Cultural History)	
Module code	HiSO 861
Module title (German)	Seminar Osteuropäische Geschichte -Schwerpunkt Südosteuropa 1 (Sozial-und Kulturgeschichte)
Module title (English)	Advanced Seminar Eastern European History - Focus Southeast European Studies 1 (Social and Cultural History)
Frequency of offer (how often is the module offered?)	Every second year (beginning in winter semester)
Duration of module	1 semester
ECTS credits	10 CP
Work load:	300 h
- In-class studying	45 h
- Independent studying (incl. preparations for examination)	255 h

Modul HiSO 862 Advanced Seminar Eastern European History - Southeast European Studies 2 (Political History)	
Module code	HiSO 862
Module title (German)	Seminar Osteuropäische Geschichte - Schwerpunkt Südosteuropa 2(Politikgeschichte)
Module title (English)	Advanced Seminar Eastern European History - Southeast European Studies 2 (Political History)
Frequency of offer (how often is the module offered?)	Every second semester (beginning in winter semester)
Duration of module	1 semester
ECTS credits	10 CP
Work load:	300 h
- In-class studying	45 h
- Independent studying (incl. preparations for examination)	255 h

Modul Hist 881 Advanced Seminar North American Political History	
Module code	Hist 881
Module title (German)	Nordamerikanische Geschichte I (Politikgeschichte)
Module title (English)	Advanced Seminar North American Political History
Frequency of offer (how often is the module offered?)	Every second semester (beginning in winter semester)
Duration of module	1 semester
ECTS credits	10 CP
Work load:	300 h
- In-class studying	30 h
- Independent studying (incl. preparations for examination)	270 h

Modul Hist 882 Advanced Seminar North American Cultural History	
Module code	Hist 882
Module title (German)	Nordamerikanische Geschichte II (Kulturgeschichte)
Module title (English)	Advanced Seminar North American Cultural History
Frequency of offer (how often is the module offered?)	Every second semester (beginning in summer semester)
Duration of module	1 semester
ECTS credits	10 CP
Work load:	300 h
- In-class studying	30 h
- Independent studying (incl. preparations for examination)	270 h

Modul Hist 883 Advanced Seminar North American Social History	
Module code	Hist 883
Module title (German)	Nordamerikanische Geschichte III (Sozialgeschichte)
Module title (English)	Advanced Seminar North American Social History
Frequency of offer (how often is the module offered?)	Every second semester (beginning in winter semester)
Duration of module	1 semester
ECTS credits	10 CP
Work load:	300 h
- In-class studying	30 h
- Independent studying (incl. preparations for examination)	270 h

Modul IOCM100 Introductory Module	
Module code	IOCM100
Module title (German)	Einführungsmodul
Module title (English)	Introductory Module
Person responsible for the module	Prof. Dr Christian Kreuder-Sonnen (Professorship of International Organizations)
Prerequisites for admission to the module	--
Recommended or expected prior knowledge	--
Prerequisite for what other modules	Executive Module (IOCM 400) and Summer School (IOCM 500)
Type of module (compulsory module, required elective module, elective module)	Compulsory module
Frequency of offer (how often is the module offered?)	Every second semester (beginning in winter semester)
Duration of module	1 semester
Module Components/Types of courses (lecture, practical course, lab, tutorial, exercise, seminar, internship, ...)	Lecture (2 hours per week per semester)
ECTS credits	5 CP
Work load: - In-class studying - Independent studying (incl. preparations for examination)	150 h 30 h 120 h
Content	<p>The lecture aims to create a common foundation of knowledge for the study programme, which serves as a basis for further studies. It is held jointly as a lecture series by the professorships of the programme. On a case-by-case basis, Jena professors from other subjects relevant to the lecture and from other universities are invited to complement the curriculum. Particular attention will be paid to the following topics:</p> <ul style="list-style-type: none"> • International organisation, institutions, and the importance of international organisations • Theories and concepts for the analysis of international organisations from political science, economics and sociology • History of international organisations • Legal bases of international organisations • Structures and internal processes of international organisations • Functioning and activities of international organisations • International non-governmental organisations • New and hybrid forms of international organisations • Theories and concepts of peace and conflict research • Crisis policy and crisis management

Intended learning outcomes	The students are to be introduced to the basics of the course. This includes theories and concepts, the central literature, and empirical illustrations. They also learn about important controversies and gaps in research. Through their own in-depth reading, participants should get an overview of the subject area of the programme and acquire a common foundation of knowledge.
Prerequisites for admission to the module examination	--
Requirements for awarding credit points (type of examination)	The module grade is the grade of a written exam on the lecture topics.
Additional information on the module	--
Recommended reading	--
Language of instruction	English

Modul IOCM200 International Organisations	
Module code	IOCM200
Module title (German)	Internationale Organisationen
Module title (English)	International Organisations
Person responsible for the module	Prof. Dr Christian Kreuder-Sonnen (Professorship of International Organizations)
Prerequisites for admission to the module	--
Recommended or expected prior knowledge	--
Prerequisite for what other modules	Specialisation I and II (IOCM 600 and 700)
Type of module (compulsory module, required elective module, elective module)	Compulsory module
Frequency of offer (how often is the module offered?)	Every second semester (beginning in winter semester)
Duration of module	2 semester
Module Components/Types of courses (lecture, practical course, lab, tutorial, exercise, seminar, internship, ...)	Seminar with field trip (2 hours per week per semester), seminar (2 hours per week per semester)
ECTS credits	10 CP
Work load:	300 h
- In-class studying	78 h
- Independent studying (incl. preparations for examination)	222 h

Content	<p>With its focus on international organisations, this module deepens one of the two core areas of the programme. It is based on a broader understanding of international organisations, which includes both international governmental and non-governmental organisations and hybrid forms of organisations.</p> <p>Starting from the most important theories of international institutions (including rational and sociological institutionalism), the module examines the role of various stakeholders (social actors, member states, international bureaucracies, etc.) in the creation of "global governance", and central questions concerning the function of international organisations, drawing on concepts such as power, autonomy and legitimacy in various policy fields (e.g. human rights, finance or health). A special focus is on the role of international organisations in the context of cross-border crises. How do IOs react to crises? Are they central or marginal in crisis management? How do IOs themselves change through crisis policy?</p> <p>One of the seminars of the module includes a field trip to international governmental and non-governmental organisations, relevant units of national administrations or a crisis region in order to provide the participants with practical insights and access to first-hand information.</p>
Intended learning outcomes	<p>Students acquire in-depth knowledge of research on international organisations; the field trip gives them the opportunity to get to know the work of and in international organisations. They are familiarised with the theoretical-conceptual literature, apply it methodically to concrete cases in the seminars, deal with controversies, and identify research gaps that they work on. In addition, they compare different theories, research approaches and cases with the aim of gaining cross-case insights. This enables the participants to develop their own research perspectives. The focus is on the independent and innovative analytical performance of the participants. In addition, students improve their soft skills through presentations, debates, group work and other interactive working methods.</p>
Prerequisites for admission to the module examination	<p>Active participation is required for admission to the module examination. The exact form of active participation will be announced at the beginning of each semester—for example, tasks to be performed in advance, contributions to discussions, minutes or accompanying papers.</p>
Requirements for awarding credit points (type of examination)	<p>a) The seminar in which no field trip takes place is concluded with a graded paper.</p> <p>b) The seminar in which the field trip takes place is concluded with an essay (weighted at 70%), which is defended in an oral examination (weighted at 30%).</p> <p>The seminar without field trip counts for 60% of the module grade, the seminar without field trip counts for 40% of the module grade.</p> <p>To pass the module, each submodule examination must be passed. The concrete performance requirements will be announced at the beginning of the semester.</p>

Modul IOCM300 Crisis Management	
Module code	IOCM300
Module title (German)	Krisenmanagement
Module title (English)	Crisis Management
Person responsible for the module	Prof. Dr Rafael Biermann (Chair of International Relations)
Prerequisites for admission to the module	--
Recommended or expected prior knowledge	--
Prerequisite for what other modules	Specialisation I and II (IOCM 600 and 700)
Type of module (compulsory module, required elective module, elective module)	Compulsory module
Frequency of offer (how often is the module offered?)	Every second semester (beginning in winter semester)
Duration of module	2 semester
Module Components/Types of courses (lecture, practical course, lab, tutorial, exercise, seminar, internship, ...)	a) Lecture (2 hours per week per semester) b) Seminar (2 hours per week per semester)
ECTS credits	10 CP
Work load: - In-class studying - Independent studying (incl. preparations for examination)	300 h 60 h 240 h
Content	<p>The module deepens one of the two core areas of the study programme with a focus on crisis management.</p> <p>The lecture aims to impart basic knowledge of peace and conflict research. It alternates between an introduction to conflict analysis (including key concepts, ethics of just war / peace, causes of conflict and peace, conflict types, conflict consequences) and an introduction</p> <p>a) to international conflict management (including crisis prevention, mediation, sanctions, humanitarian intervention and responsibility to protect, peacekeeping, transitional justice and reconciliation, combating terrorism).</p> <p>b) In the seminars, individual aspects are dealt with in greater theoretical and conceptual depth using case studies. This will be based on a broader understanding of crisis management, including other types of international crises such as pandemics, natural or man-made disasters, or financial crises and their management. The special importance of international governmental organisations and non-governmental organisations in these policy areas is also addressed.</p>

Intended learning outcomes	Students acquire basic knowledge of the analysis of international crises and conflicts and their management. They are familiarised with the theoretical-conceptual literature on peace and conflict research and apply it methodologically to concrete cases of international crisis management in the seminars. They also deal with the management of international crises in other policy areas, such as refugee crises or disaster relief. Students deal with controversies in science and politics and identify research gaps that they work on. They also compare different theories, research approaches and cases with the aim of gaining cross-case insights. This enables the participants to develop their own research perspectives. The focus is on the independent and innovative analytical performance of the participants. In addition, students improve their soft skills through presentations, debates, group work and other interactive working methods.
Prerequisites for admission to the module examination	Active participation in the seminars is required for admission to the module examination. The exact form of active participation will be announced at the beginning of each semester—for example, tasks to be completed in advance, contributions to discussions or seminar minutes.
Requirements for awarding credit points (type of examination)	<p>a) The lecture is concluded with a graded examination.</p> <p>b) The seminar consists of a term paper (70%) and seminar-related coursework (presentation, handout or comparable coursework) (30%) during the semester. The concrete performance requirements will be announced at the beginning of the semester.</p> <p>Lecture and seminar are each worth 50% of the module grade. To pass the module, each partial examination must be passed.</p>
Additional information on the module	--

Language of instruction	English

Modul IOCM400 Executive Module	
Module code	IOCM400
Module title (German)	Praxismodul
Module title (English)	Executive Module
Person responsible for the module	Prof. Dr Rafael Biermann (Chair of International Relations)
Prerequisites for admission to the module	Introductory Module (IOCM 100)
Recommended or expected prior knowledge	--
Prerequisite for what other modules	Specialisation I und II (IOCM 600 und 700)
Type of module (compulsory module, required elective module, elective module)	Compulsory module
Frequency of offer (how often is the module offered?)	Every second semester (beginning in summer semester)
Duration of module	1 semester
Module Components/Types of courses (lecture, practical course, lab, tutorial, exercise, seminar, internship, ...)	Executive course (Seminar)
ECTS credits	5 CP
Work load: - In-class studying - Independent studying (incl. preparations for examination)	150 h 30 h 120 h
Content	The module is intended to extend the theoretical-conceptual knowledge to be acquired in the modules International Organisations and Crisis Management with knowledge from practice. To this end, practitioners from national and international administrations are invited to take part in a (usually block) seminar to discuss topics related to international organisations and/or crisis management from a practical perspective.
Intended learning outcomes	Students acquire in-depth knowledge from practitioners about how international governmental and non-governmental organisations, think tanks or even national administrations cooperating with international organisations work, how they are structured, what topics they deal with, how they "think" and what they want.
Prerequisites for admission to the module examination	Active participation is required for admission to the module examination. The exact form of active participation will be announced at the beginning of each semester—for example, tasks to be completed in advance, contributions to discussions, seminar minutes or papers.

Requirements for awarding credit points (type of examination)	The seminar grade consists of one or more partial performances chosen by the seminar leader, which in its/their entirety is/are equivalent to a term paper and a presentation. These can be ministerial documents, policy papers, case studies, midterm and final, essays etc. The concrete performance requirements and—in the case of several partial performances—the exact composition of the final grade will be announced at the beginning of the semester. All partial performances must be passed.

Modul IOCM500 Summer School	
Module code	IOCM500
Module title (German)	Sommerschule
Module title (English)	Summer School
Person responsible for the module	Prof. Dr Rafael Biermann (Chair of International Relations)
Prerequisites for admission to the module	Introductory Module (IOCM 100)
Recommended or expected prior knowledge	--
Prerequisite for what other modules	Specialisation I and II (IOCM 600 and 700)
Type of module (compulsory module, required elective module, elective module)	Compulsory module
Frequency of offer (how often is the module offered?)	Every second semester (beginning in summer semester)
Duration of module	1 semester
Module Components/Types of courses (lecture, practical course, lab, tutorial, exercise, seminar, internship, ...)	Executive course Seminar
ECTS credits	10 CP
Work load: - In-class studying - Independent studying (incl. preparations for examination)	240 h 60 h 240 h
Content	A summer school is held every year. The formats vary: In the more classic workshop-type course, inputs from various speakers on the topic alternate with discussions and working groups. Topics here include peace ethics and reconciliation in post-conflict societies. This includes visits to places of remembrance and discussions with contemporary witnesses. The other format offered is a simulation, in which the knowledge of crisis management is applied, often interactively in group work and role plays. The focus here is on a better understanding of the processes, interplay and positions of various actors in crisis situations.
Intended learning outcomes	The students consolidate a thematic focus of their studies in the field of crisis management. They either acquire further theoretical-conceptual knowledge or apply their knowledge in a practical way and with current examples.
Prerequisites for admission to the module examination	Active participation is required for admission to the module examination. The exact form of active participation—e.g. tasks to be completed in advance, contributions to discussions, seminar minutes or papers—will be announced at the beginning of each semester.

Requirements for awarding credit points (type of examination)	<p>In the classic format, the seminar grade of the summer school is 100% based on a written term paper or equivalent requirements, referring to the summer school and the topics covered in it from a theoretical-conceptual perspective.</p> <p>In the case of a simulation, the seminar grade is derived from several position or background papers, which are to be prepared for the simulation and live up to the practical character of the event. Here, active participation is also included in the grading.</p> <p>The concrete performance requirements will be announced at the beginning of the semester.</p>
Additional information on the module	The summer school takes place as a block event, usually in Jena, but possibly also elsewhere.

Modul IOCM600 Specialisation (Abroad) I	
Module code	IOCM600
Module title (German)	Wahlpflichtmodul Ausland I
Module title (English)	Specialisation (Abroad) I
Person responsible for the module	Prof. Dr Rafael Biermann (Chair of International Relations)
Prerequisites for admission to the module	International Organisations (IOCM 200); Crisis Management (IOCM 300); Executive Module (IOCM 400); Summer School (IOCM 500)
Recommended or expected prior knowledge	--
Prerequisite for what other modules	--
Type of module (compulsory module, required elective module, elective module)	Compulsory module
Frequency of offer (how often is the module offered?)	Every second semester (beginning in winter semester)
Duration of module	1 semester
Module Components/Types of courses (lecture, practical course, lab, tutorial, exercise, seminar, internship, ...)	Usually two courses
ECTS credits	10 CP
Work load: - In-class studying - Independent studying (incl. preparations for examination)	300 h 60 h 240 h
Content	During their semester abroad, students can attend master's courses at partner universities that offer a range of courses including substantial courses on international organisations and/or crisis management. They can register for courses that either deal with international governmental and non-governmental organisations in all policy areas, organisation theory or with new forms of global governance, including relevant neighbouring disciplines; or they can choose courses on international crisis management, whereby the latter is broadly understood, i.e. also beyond peace and conflict research, and includes courses that are not offered in Jena (such as international development policy).
Intended learning outcomes	The students acquire specialist knowledge at precisely selected partner universities, which substantially deepens and expands the contents, theoretical and methodological approaches and teaching forms of the master's programme in Jena. By living in another culture, they also gain everyday experience abroad and intercultural sensitivity. The skills in both technical and everyday language are substantially consolidated.

Prerequisites for admission to the module examination	The requirements correspond to the specifications of the respective lecturers on site.
Requirements for awarding credit points (type of examination)	The teaching and examination forms that apply are defined in the valid module description.
Additional information on the module	<p>The website of the study programme provides information on the partner universities with which a cooperation agreement has been concluded. The number of places of study are limited. Places will be allocated following an internal selection procedure. Students can also choose other universities that they contact independently.</p> <p>It is recommended to visit international universities in an area where the language that the student chose for the master's programme is spoken.</p>

Frequency of offer (how often is the module offered?)	Every semester
Duration of module	1 semester
Module Components/Types of courses (lecture, practical course, lab, tutorial, exercise, seminar, internship, ...)	Practical job experience
ECTS credits	10 CP
Work load: - In-class studying - Independent studying (incl. preparations for examination)	300 h 280 h 20 h
Content	The module focuses on working in an international governmental or non-governmental organisation (or national administrations, think tanks). The main focus of the activities during the internship should be on the practical testing of the knowledge and skills acquired during the studies.
Intended learning outcomes	Students gain insights into practical fields of international organisations and applied peace and conflict research or crisis management and train their transferability by applying their knowledge in new contexts and fields of activity.
Prerequisites for admission to the module examination	--
Requirements for awarding credit points (type of examination)	The experience gained should be presented to the internship coordinator of the master's programme International Organisations and Crisis Management in a written report at the latest three weeks after completion of the internship. The report is graded "passed" or "failed". Further information will be provided by the internship coordinator.

Additional information on the module	<p>If desired, the module or internship coordinator will assist in finding an internship by providing an up-to-date list of possible internship places. The organisations decide autonomously on the applications. Applications are to be prepared and submitted independently by the students.</p> <p>Prior to the internship, it should be clarified with the internship coordinator whether the intended internship is thematically relevant in line with the study programme.</p> <p>It is recommended to complete the internship at the place or in the country where the semester abroad is spent. It should take place during the lecture-free period. However, the internship can also be completed in another semester. It is possible to combine the internship with the topic of the master's thesis.</p>

Modul IOCMIM3 Interdisciplinary Module I	
Module code	IOCMIM3
Module title (German)	Interdisziplinäres Modul I
Module title (English)	Interdisciplinary Module I
Person responsible for the module	Prof. Dr Rafael Biermann (Chair of International Relations)
Prerequisites for admission to the module	--
Recommended or expected prior knowledge	--
Prerequisite for what other modules	--
Type of module (compulsory module, required elective module, elective module)	Required elective module
Frequency of offer (how often is the module offered?)	Every semester
Duration of module	1 semester
Module Components/Types of courses (lecture, practical course, lab, tutorial, exercise, seminar, internship, ...)	Usually 1-2 courses
ECTS credits	3 CP
Work load: - In-class studying - Independent studying (incl. preparations for examination)	90 h 0 h 0 h
Content	Students can register for master's courses in other subjects that meaningfully deepen or broaden the content of the IOCM master's programme. They can register for either complete modules or individual courses of other subjects with a total volume of 3 ECTS (90h workload). It is also possible to register for modules or courses at our partner universities in Halle, Leipzig and Erfurt.
Intended learning outcomes	Students acquire knowledge in a subject that complements the contents of the master's programme.
Prerequisites for admission to the module examination	The requirements correspond to the specifications of the respective departments.
Requirements for awarding credit points (type of examination)	In complete modules, the type of assessment is determined in the corresponding module description. The specifications of the respective departments apply in each case. If individual courses are chosen, a graded examination, usually a written exam or term paper, must be taken.

Additional information on the module	If students register for courses in other disciplines that are not listed in the module catalogue of the IOCM master's programme yet, they need to seek the agreement of both the lecturer offering the course and the subject-specific academic advisory service in advance. Please use the ASPA Form for Exam Registration for Transdisciplinary Modules (IPK, Sociology, Political Science).

- Independent studying (incl. preparations for examination)	120 h

Modul SPZAIOCM10 Language Module II	
Module code	SPZAIOCM10
Module title (German)	Sprachenmodul II
Module title (English)	Language Module II
Person responsible for the module	Prof. Dr Rafael Biermann (Chair of International Relations)
Prerequisites for admission to the module	In order to determine the level of language proficiency, students must either present a language certificate at the beginning of their studies or take an online placement test supervised by the Language Centre.
Recommended or expected prior knowledge	Prior knowledge of the language is recommended (except for German as a Foreign Language courses). Foreign students with German language skills below level A2 are recommended to choose German as a Foreign Language.
Prerequisite for what other modules	--
Type of module (compulsory module, required elective module, elective module)	Required elective module
Frequency of offer (how often is the module offered?)	Every second semester (beginning in winter semester)
Duration of module	2 semester
Module Components/Types of courses (lecture, practical course, lab, tutorial, exercise, seminar, internship, ...)	The module consists of two language courses of 5 ECTS each (so-called basic courses with 4 hours per week per semester each) and self-study in the language chosen at the beginning of the course
ECTS credits	10 CP
Work load: - In-class studying - Independent studying (incl. preparations for examination)	300 h 120 h 180 h
Content	Depending on the focus and level, the courses taken in the chosen language provide basic or advanced knowledge in grammar, listening and reading comprehension and conversation, or language and subject matter expertise in thematic areas such as politics, economics, law, history or literature. Each language course ends with a written examination and a certificate attesting to the skills acquired.
Intended learning outcomes	Consolidation and acquisition of language and linguistic skills, which are used in international governmental and non-governmental organisations, ministries or think tanks.
Prerequisites for admission to the module examination	To be admitted to the exam, students must have attended at least 80 percent of the courses.
Requirements for awarding credit points (type of examination)	One written exam per course (50%) Each module part examination must be passed.

Additional information on the module	<p>There is a language coordinator for this module within the subject-specific academic advisory service. The coordinator advises students on their choice of language and course combination and keeps an up-to-date list of consecutive language courses that can be taken at the Language Centre. The coordinator also checks the language course certificates acquired.</p> <p>Ideally, the language is used during the semester and internship abroad, and also in the empirical work in the master's thesis.</p> <p>Students can also take language courses organised in blocks during the lecture-free period or during a semester abroad.</p> <p>Depending on what is on offer and upon consultation with the language coordinator, students can register for language courses at the Language Centre or in the respective specialist disciplines.</p>

ECTS credits	9 CP
Work load: - In-class studying - Independent studying (incl. preparations for examination)	270 h 90 h 180 h
Content	Depending on the focus and level, the courses taken in the chosen language provide basic or advanced knowledge in grammar, listening and reading comprehension and conversation, or language and subject matter expertise in thematic areas such as politics, economics, law, history or literature. Each language course ends with a written examination and a certificate attesting to the skills acquired.
Intended learning outcomes	Consolidation and acquisition of language and linguistic skills, which are used in international governmental and non-governmental organisations, ministries or think tanks.
Prerequisites for admission to the module examination	To be admitted to the exam, students must have attended at least 80 percent of the courses.
Requirements for awarding credit points (type of examination)	One written examination per course (33%). Each partial module examination must be passed.

Additional information on the module	<p>There is a language coordinator for this module within the subject-specific academic advisory service. The coordinator advises students on their choice of language and course combination and keeps an up-to-date list of consecutive language courses that can be taken at the Language Centre. The coordinator also checks the language course certificates acquired.</p> <p>Ideally, the language is used during the semester and internship abroad, and also in the empirical work in the master's thesis.</p> <p>Students can also take language courses organised in blocks during the lecture-free period or during a semester abroad.</p> <p>Depending on what is on offer and upon consultation with the language coordinator, students can register for language courses at the Language Centre or in the respective specialist disciplines.</p>

Language of instruction	Language chosen by the student at the beginning of the study programme

Modul IOCM900 Master thesis	
Module code	IOCM900
Module title (German)	Masterarbeit
Module title (English)	Master thesis
Person responsible for the module	Prof. Dr Rafael Biermann (Chair of International Relations); Prof. Dr Christian Kreuder-Sonnen (Professorship of International Organizations)
Prerequisites for admission to the module	Modules IOCM 100-500
Recommended or expected prior knowledge	--
Prerequisite for what other modules	--
Type of module (compulsory module, required elective module, elective module)	Compulsory module
Frequency of offer (how often is the module offered?)	Every semester
Duration of module	1 semester
Module Components/Types of courses (lecture, practical course, lab, tutorial, exercise, seminar, internship, ...)	Supervised individual work
ECTS credits	15 CP
Work load: - In-class studying - Independent studying (incl. preparations for examination)	900 h 0 h 0 h
Content	<p>Students write a master's thesis on a research question in the field of international organisations and/or crisis management. It is recommended to combine both subject areas.</p> <p>Master's theses should be research-oriented. They may also contain concrete recommendations for action. In any case, a master's thesis should be a theory-based analysis of empirical facts. An exposé must be prepared in preparation for the master's thesis. The assessors of the master's thesis provide more detailed information on this.</p>
Intended learning outcomes	With the master's thesis, students demonstrate their ability to carry out independent scientific work. They show that they can work on a topic independently and in a theoretically as well as methodologically sound way within a given period of time taking into account the current state of research, and that they can present the results obtained in an appropriate and coherent manner.
Prerequisites for admission to the module examination	--

Requirements for awarding credit points (type of examination)	Master's thesis (100%)
Additional information on the module	The master's thesis has to be written in English.
